About Me

I am a person with great curiosity, since I have experienced and participated different genre of activities, I learned new perspectives to observe the world, and build up interest to learn in an unfamiliar field. I'm also a creator, I love to build my own works, in order to express my thoughts and stories, I learned skills like languages, drawing, writing, and coding. With these skills, I'm able to step out the comfort zone, participate challenging activities to reach the goals and expand my scope of view.

Education

National Taipei University of Technology	Taipei, Taiwan
Bachelor Degree of Electrical Engineering / Education program	Sep.2024-Jun.2026
National Taipei University of Technology	Taipei, Taiwan
Associate Degree of Intelligent Automation Engineering	Sep.2019-Jun.2024
- Scholarship for Academic Performance in every semester	

Professional Skills

Languages: Mandarin (Native), English (TOEIC RL:810, SW:270, IELTS O:6.5, GRE V:145, Q:158, AW:3.5), Japanese (Passed JLPT N1)	
Coding Languages: Python, C, C#,HTML,CSS, Vue, Javascript / TypeScript, Vue, Cypress	
IBM SkillsBuild Batch: Python for Data Science, Growth Behaviors	May.2022, Oct.2023
Art/Music Performing: Percussion, Piano, Trumpet, Baritone, Painting, Designing	
Sports: Taekwondo 2 Dan	March.17.2023
Certificate: MOEA Certified 3D Printing Additive Manufacturing Engineer-Associate Level	July.2023
Google Cybersecurity	July 2025

Awards

Sch001 2023 Project incubation competition <i>Select as Thriving Team</i>	March.2 2024
InnoServe Awards Titansoft Agile <i>Second place</i>	Nov.4 2023

Experiences

Extra Curriculum

NTUT Taekwondo Club	Oct. 2020-Now
NTUT Soccer Team (Join Practice)	Oct.2022-2024

Selected and Additional Courses

Basic German	Sep.2019-Jan.2020, Feb.2024-Jun.2024
Introduction to Artificial Intelligence	Feb.2020-June.2020
Programming Design with Matlab/Simulink	Sep.2020-Jan.2021
Share@AI Coding Club in NTUT	Jan.2021-May.2021
Overview of Patent Law	Feb.2021-Jun.2021
Deep Learning with TensorFlow	Sep.2021-Jan.2022
Computer-Aided-Graphic-Design	Sep.2021-Jan.2022
Electrical Circuit Design and Lab	Feb.2022-Jun.2022
Industry 4.0 Lecture	Feb.2022-Jun.2022
Cloud based Computing and Application	Sep.2022-Jan.2023
Network Programming	Sep.2022-Jan.2023
3D printing and Lab	Sep.2023-Jan.2024
Architecture Planning	Sep.2023-Jan.2024

Structure and System Planning (Architecture)	Sep.2023-Jan.2024
Data Structure	Sep.2023-Jan.2024
Discrete Math	Feb.2024-Jun.2024
Digital System	Sep.2024-Jan.2025
Power Electronics Lab	Feb.2025-Jun.2025
Power System	Sep.2025-Jan.2026
Power Electronics	Sep.2025-Jan.2026
Object-Oriented Programming	Sep.2025-Jan.2026
Control System Lab	Sep.2025-Jan.2026
Satellite Remote Sensing Applications and Lab	Sep.2025-Jan.2026
Pharmaceutical Botany	Sep.2025-Jan.2026

Projects

1. Project work with LEDA Technology May.2021-Jan.2022

-Experienced AI, Frontend, and Backend Development

- Cooperate with NYCU, and CYCU students, led by LEDA workers, we made a website that people could use AI quickly, and also provide services such as clip the picture as training data.
- Cooperate with doctors, I wrote a program which is able to transfer CT files to picture (.jpg, .png) files, so the data could be used in annotation.

3. Python project of game Apr.2021-Jul.2021

-Designed a monopoly game with python.

4. P-TECH Call for Code May.2021-Jul.2021

-Designed a system due to the pandemic (COVID-19)

- The system gets information from people, hospital, schedule the manpower of doctors and medical staffs due to the pandemic screening. The system is divided into two parts: the medical staff part is able to get requirements from people or hospital, calculate the nearest place with adequate materials and manpower, and the normal user part is able to ask the system should they go for the quick sieve and where should they go.

5. Eco-Friendly Board Game Sep.2021-Jun.2022

- Lead and organized the team through out the project
- Designed the exterior of all the cards, Map

6. MIT City Science Lab Spring UROP : Music Block Feb.2023-Jun.2023

-Learn to start a project from 0 to 1, project management, firmware, C

- Music Block is a concept product of turning "Music" into a visible 3D substance, the target is to teach music beginners basic music theory, and also build a sense of sounds through it, we also looking forward to the music professionals utilising it as a creativity tool
- Firmware Development for the blocks and bottom board

7. Linux Odyssey : Interactive Terminal Teaching Website Apr.2023-Now

-Experienced Javascript, TypeScript, Vue Development, Test Automation, Visual Design

- Frontend Development and Maintenance
- Test Automation Development
- Logo,Website Interface ,Poster Design
- InnoServe Awards 28th Taitansoft Agile *Second place*
- Selected as Thriving Team in Sch001 2023 Project incubation competition
- Constantly holding Activities for Open Source promotion, education and share developing experience

8. Behind Brewing : The Role of Thermistors and Heaters in Coffee Maker

Sep.2024-Jan.2025

- A study and research about practical circuit in real world in Circuit Theory course

Research Steps:

- Study of the original circuit
- Simulation on SIMetrix software
- Modify the parameters to see difference and features of the circuit
- Optimise the circuit in specific usage (Coffee Brewing)

[Preliminary Results Link](#)

Summer Internship: AUO Corporation

July.2022-Aug.2022

-Experienced AI, Python PyQt GUI Development, YOLOv5, Labelme Application

- Maintaining the AI detection system
- Combine additional regulation tool to retrain model.
- Combine additional YOLOv5 detection for different usage and manufacture circumstances

Internship: International Business Machines Corporation

July.2023-Dec.2023

-Experienced Cypress Test Automation Development, JavaScript

- Fix and write testing files
- Specify website problems from the automation tests

Committee Members: Vice President of Taekwondo Club

July.2022-Now

- Raise Club Exposition and School Fair
- Maintain club Operation

Activities

City Youth Forum

Dec.25-26 2020

Final Prize in School Monographic

2021 Girls in Cyber Security

May.2021

22nd kW Design Award

Jan.2022

NanYing National Taekwondo Championship

Apr.2 2022

Group College and High School Girls First and Second Level

Third place

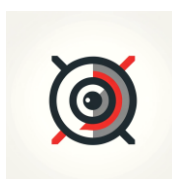

28th InnoServe Awards

- Titansoft Agile

Nov.7 2023

Second place

Linux Odyssey – Interactive
Terminal Teaching Website

School 2023 Project incubation competition

March.2 2024

Select as Thriving Team
